connected with the service pipes at all," said Ald. John Toman, who was opposed to the meters.

"We pay for gas and electricity by meter, why not buy water the same way?" said Ald. W. F. Lipps.

"The meters are a protection for the small property owner," said Ald. A. J. Fisher, "and is designed to make the large consumer pay his just share of water rates. I don't know why there should be opposition."

"They can start in on my ward with the meters if they want to," said Ald. John C. Kennedy. "It is a step in the right direction."

Ald. William R. O'Toole was against the ordinance. He said a constituent of his installed a meter and his water bill was more than he received in rent from the building.

"I don't see why there is all this talk about metering," said Ald. Cullerton. "Any property owner who wants a meter can have one, yet we have but 28,500 meters in the whole city."

The council first resolved itself into a committee of the whole, which recommended the meter ordinance for passage. A test vote during this period was taken to show the council's attitude on the measure. The attitude was against filing the measure until it had been thoroughly investigated.

Resolving itself back into a council meeting, the council then filed the measure by the following vote:

PUBLIC UTILITIES

Philip H. Gadsden, chairman of the national committee on public utility conditions, has endorsed the plea of the utilities that the president exercise his right to fix rates with a view to supply sufficient income to keep the utilities in efficient condition for war purposes.

He called attention to the fact that the unification of all industry in the interests of the war has served to bring out in bold relief how essential the public utilities are in maintaining the energies of the nation in the struggle.

"Upwards of 60 per cent of industrial or factory power is furnished by public utilities," says Mr. Gadsden. "The present supply is now unequal to the demand because of the speeding up of all industries on account of the war."

"It is stated that practically all of the high speed steel (the so-called electric steel) is now manufactured through the medium of electric furnaces which are largely operated with electricity furnished by public utilities."

"By reason of war orders, new industrial centers are being formed to house the army of new workers, thus making tremendous demands on present electric railway systems. Upwards of 80 per cent of the factory employees are now transported daily by the electric street and interurban railroads, these railroads moving approximately 20,000,000 passengers annually. "The public utilities must be relied upon to furnish at least 20 per cent of the total necessary for the prosecution of the war."

"They must furnish important short haul freight service to relieve the congested steam railroad conditions at terminals and industrial centers."

strong with men of every shade of political opinion. He deserves to be renominated and re-elected.

RE-ELECT SHERIDAN

Popular County Assessor Deserves Well at the Hands of the Voters. His Record Is Good.

One of the most popular public officials in Chicago is Michael K. Sheridan, whose term as county assessor expires this year.

His record is a fine one and his faithfulness to duty certainly entitles him to a re-election at the hands of the voters regardless of party.

A staunch and lifelong Democrat, loyal to his party, his renomination is a certainty at the primary.

He has treated all citizens with fairness regardless of party lines and his devotion to the interests of all the people is known to everybody. A

native American, Mr. Sheridan, who was born in Sterling, Illinois, has lived in Chicago since 1888.

For twenty years he was manager of the shipping department of the big packing plant of Morris & Company at the Stock Yards. In 1912 he was appointed deputy clerk of the Criminal Court and was elected member of the Cook county board of assessors in the fall election of that year. In this capacity he served two years as secretary of the board and two years as chairman, and during his entire term his course has been guided by an eye single to the welfare of the public, fair play to the taxpayers duty. He now holds the position of chairman of the board of assessors.

Mr. Sheridan received his education in Sterling, Illinois, where he graduated from the public high schools. He afterwards attended business college and thus equipped he started out to face the world, and in the world's battle has met with great success. Mr. Sheridan is a member of the Knights of Columbus, the Maccabees, the Loyal Order of Moose, the Irish Fellowship Club, the Englewood Patriotic League, the Soldiers Relief Society and is an auxiliary member of the State Council of Defense. He is, as we have said, a Democrat from the ground up, and is now Democratic ward committeeman from the Thirty-first ward. He was a member of exemption board No. 72 until January 12, 1918, when Governor Lowden accepted his resignation which Mr. Sheridan was obliged to tender so he could attend to his official duties as member of the board of assessors.

Mr. Sheridan has the distinction of being complimented upon the fact that his board of exemption had not cost the government a single penny for anything while he was a member of that body, as he furnished the clerkhire, room, light, heat and everything else pertaining to the work.

As stated at the outset, Mr. Sheridan's term expires in the coming fall. He is a candidate, within the lines of the Democratic organization, and if he is nominated for re-election (which is a certainty) he will undoubtedly be re-elected. He is a man of quiet and unassuming ways, and his candidacy is being conducted in a quiet, dignified way. As he says himself: "If the Democratic organization drafts me again for office I shall make the race, and if elected shall serve. If I am not 'drafted' by the party I shall be found working for the regular candidate, and for all the regular candidates on the county ticket."

Michael K. Sheridan is nothing if not a patriot. He has given his time and best efforts to his country ever

since the outbreak of the war. His son, John J. Sheridan, 20 years of age, is enlisted in the aviation section of the United States army.

He should be renominated and re-elected to the board of assessors.

CAREY A STRONG CANDIDATE

The feeling is growing that Tom Carey is the logical Democratic candidate for Mayor of Chicago.

He belongs to no faction. He is controlled by no clique. He is forceful. He is fearless. He is honest.

He has nothing to conceal. The longer the campaign the stronger he will be. Under present conditions he appears to be the ideal candidate.
